Answer to Question No.

There is a question that I want to ask in the CRESSET, Bro. Garrett can answer at this Office if you want a cheap it any time he sees fit, It is what we are to learn in the last paregraph of the 5th chapter of second Samuel the 24th verse in particular It rads like there might be a typographical error in it in this sentence. [when thou hearest the -Mr. P. A. Herrington orthorise sound of a going in th tops of the where there might be a word left out. Unless the word 'going' is the name of thesound to be heard;

-E. E. Sap tontone Seguin Wash. 2 Samuel 5-24 New Aversion.

"Aud it shall be, when thou beares the sound of marching in the tops of the mulberry trees, that then thou shalt beknow of any one more competent sur thyself: for then is the Lord gone out before thee to smite the Hosts of he Philistmes.

The Brother will see from the following that there is nothing left out, yet those men who done the revising also thought so and made a change as they thought for the better, but in our judgement they failed. And the reason we exercise our judgement months, to investigate the facts in the in this manner is; First, In this

nates the position of the army-Therefore, we read it when you hear the sound in the tops of the mulberry trees of the

rmy fleeing then bestir thyself. That is when thou shalt bear sound (in the tops of the mulberry trees) of going then bestir thyself or in other words when you hear the noise the army make while it is fleeing, the sound of the going of the army will be heard in the tops of the mulberry trees. The wording and ladguage given in the 24 verse express the same idea when thou hearest the sound of a going in the tops of the mul-

That is when the sound of the fleeing army reach the tops of the mulberry trees, bestir thyself. Just the same as I would say, when you hear the sound of horse feet on the barn, the sound of a voice, or of a wagon, strike something at a distance it will reache, So when thou hear est the sound of a going or as it reads in 1 Chron. 18 ch. 15 v.

When thou shalt hear a sound of a going then bestir thyself. And the reason we cannot cxcept the new version is because hey put in marching, and we do not believe that when David was to hear the sound of the Phillis tine army a going, that they were

had put them to flight and they were fleeing and not marching therefore we say that the change om going to marching was wreng in those revisors. And the remon we say it, is because we believe that God put them to flight, and when God did this is when David was to hear the sound of a going in the tops of the mulberry trees.

We trust this will give the necessary light. Of coarse God uld have said to David, when you hear the sound of the fleeing a my of the Philistians in the tops of the mulberry trees, then bastir thyself.

Committing to the best judge ment of the questioner, we remain as ever yours.

-w. c. murphy candidate for collector of Texas county is subto Democratic primary May the 19 1906 We think that the Democrats of Texas co. could make no mistake making him their choice for collector.
